Baby Boomer 1950sBy Debra duPontThis is a good general purpose book for 50s-60s dolls. The photos are good and plentiful. I was mostly interested in Ginny Dolls and the book offered 31/2 pages of info with color photos. Chatty Cathy, Patty Playpal were also on my list and the book presented basic info with photos. Overall, I am happy to have a copy in my doll library.1 of 1 people found the following review helpful. A fun and informative book....a great trip down memory lane!By GlynisThis book of Baby

Boomer play things was well presented, colourful and informative. I enjoyed reminiscing as I went through it the first time. There will be many happy wanderings through this book as time goes on! Postage was quite fast, coming to Australia from the USA. The book itself was well priced, the postage can be a bit pricey but I think that is just how it is when purchasing internationally. I am very pleased with my purchase, thanks.

The book features the latest secondary-market prices for over 500 dolls and includes 400+ colour photographs. of the baby-boomer era, from well-known films like Mattel, Ideal and Madame Alexander to smaller, lesser-known producers. and Miss Revlon as well as film and television-based favourites like Shirley Temple, Patty Duke, The Flying Nun and Pebbles and Bam-Bam.
