As usual, the photography is spectacular. With information and photos depicting some of the finest factory and custom blackpowder guns available today. Not just guns but of knives, sheaths, hunting pouches, possible bags and all the accoutrements. Yes, unfortunately, there is a chapter on modern inline but you can skip right past that. 0 of 0 people found the following review helpful. Beautiful Book! By MWCLove this book. Though it does seem to highlight near every muzzleloader produced by Pedersoli, anyone with an appreciation for custom, high quality contemporary longrifles (of which plenty are pictured) should add this full color book to their library. 0 of 0 people found the following review helpful. Five Stars By JAMES F. TAYLOR very good book particularly about guns made in the Gardone valley.
