Kasprowski Publisher : Bonaire : Road Map with Street Index, Diving Sites, Biking Trails, and Kayaking Trails before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bonaire : Road Map with Street Index, Diving Sites, Biking Trails, and Kayaking Trails:

0 of 0 people found the following review helpful. Bonaire mapBy A. CaradonnaWoops. I rated this map on the playing cards item. This map is detailed with street names and is better than anything I have found on the island itself. Excellent map.0 of 0 people found the following review helpful. Five StarsBy Mark Babe help a lot with getting around the island.

This is currently (2016) the most up-to-date and only complete road map of Bonaire (Scale 1 : 40 000), as well as the Kralendijk urban area, spanning from Santa Barbara Crowns, through the airport, and all the way to Punt Vierkant (Scale 1 : 15 000). An inset of Rincon (Scale 1 : 12 000) is also included. All maps and insets come with thorough street indexes obtained from our surveys and local government agencies. *** The map shows all the island's known roads and streets with their names, as well as an extensive set of biking routes and kayaking trails. *** ALL OFFICIAL DIVING SITES around Bonaire and Klein Bonaire are displayed, most with their GPS locations, as recorded by STINAPA, the island's official conservation foundation. *** The map is sold folded, measuring 5 1/4" x 9 5/8" (13.5 cm x 24.5 cm) and is designed for easy opening and refolding. Its full unfolded format is 26" x 38 5/8" (66 cm x 98 cm). The map can also be hung on a wall to show the entire island. It offers rich topographic detail in an attractive full color layout with a high-quality glossy finish. *** Most important features: (1) Main and secondary roads; diving, snorkeling, and shipwreck sites; biking, hiking, and kayaking trails; beaches, bays, reefs, and marinas; national parks, protected areas, mountain peaks, and other natural features; caves and fossil sites; bird watching, turtle nesting, butterfly and flamingo areas; Indian inscriptions (petroglyphs), slave camp sites, watermills, and other historic locations; international airport, parking areas, sports arenas, medical centers, lighthouses, gas stations, places of worship, schools, police stations, post offices, and other points of interest; (2) Symbol key and scale; depth curves, soundings, heights, and contour lines in meters, longitude and latitude lines and other identifiers.
