National Geographic Maps - Reference : California [Tubed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised California [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Good mapBy RonNeeded a California map for planning a trip out there. This map is perfect for the job0 of 0 people found the following review helpful. Five StarsBy JakeExactly what I was looking for!0 of 1 people found the following review helpful. Five StarsBy CookiePerfect size for a large bulletin board.

National Geographic's wall map of California offers a dramatic visualization of the Golden States physical geography. From the Sonoran and Mohave deserts, the fertile Central Valley, the mighty Sierra Nevada Mountains, and the Redwood Empire, the entire state is rendered in elegant detail. Stunning shaded relief depicts mountains and ocean depths, while vibrant colorization distinguishes forests, deserts, valleys, and other physical topography. In addition to the geographical features such as mountain ranges, prominent peaks, islands, major lakes, rivers, and reservoirs, this

map includes the location of cities, towns, airports, national and state parks, and military bases. The Pacific Crest Trail, a long-distance hiking and equestrian trail that runs through the entire state from the border with Mexico into Oregon, is shown as well. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:1,185,500 Sheet Size = 33.5" x 40.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
