By Melinda Pollard Such a great book! I thoroughly enjoyed reading it and learned so much that I can apply to my life. 3 of 3 people found the following review helpful. Not fish; but a precious fishing pole! By The Weiners A friend suggested I read this book. Skimming the contents, I concluded that I had stumbled onto the work of another author trying to make money by selling warmed over clichs to any poor soul seeking a magic solution for getting rich quick or fixing their failed life. But, a promise is a promise and so I started to read the book. What a shock! What a pleasant surprise! I couldn't put the book down (talk about a cliché); no really, I didn't want to put it down. I couldn't wait to read the next paragraph and find the next gem just lying there in my path. With a no nonsense, fast moving, uncluttered style, the author unloads on the reader, in a most humble manner, the secrets to true success in life. Nothing magic here; just hard work lies ahead. But, at least one on their life's journey will have more than just a clue as to how to get to the desired end. I found myself trying to read faster and faster and yet not wanting to miss a single precious stone that the author had left for me. Then regret surfaced. If only I had had this book 50 years ago! How different might things be today? I wondered. But then it became clear to me that I still had time left and I had better get busy cashing in the gems I had found in these pages. Perfect; my initial regret seemed to vanish and I was filled with excitement. Please, don't let this one get away. Read it and then read it again. Let the wisdom sink in. And make sure that you share it with those you love.
