Our GPS did not work well in Guatemala so this map was invaluable! We traveled all parts of Guatemala for two weeks and found the map to be very accurate. It is treated with something that made it water resistant and very sturdy as well.4 of 4 people found the following review helpful. meh!By Stephen D. Chiquoinewell made map but it really only gives the main roads.....signage in Guatemala is at a premium on the best of days and the failure to have any "exploded" sections (e.g. Guatemala City) made the map we got from the rental car place for free a far more useful product1 of 1 people found the following review helpful. Good purchase for a trip to GuatemalaBy HenryI'm really glad that I bought this for my trip; it worked in many places where my phone was too far from signal to be of any use. I loved the waterproofing, too. A lady from Costa Rica also on vacation even asked where I had bought it; she was rather disappointed when I told her!
