Ted Bacyk, David Bacyk, Tom Rowe : Gun powder cans kegs, Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Gun powder cans kegs, Volume 1:

Old powder cans and kegs are colorful, historical and highly collectible, catering to a variety of interests. The Bacyk collection is probably the most extensive assemblage of powder cans, kegs and related memorabilia in existence. The quality, rarity and scope make this collection extraordinary. To date there have been minimal references for these collectors to determine rarity or value of cans and kegs. This book is focused on the major American manufacturers: du Pont, Laflin Rand, American Powder, King and Hazard, plus their related companies.
