**Tom Jackson : Hidden Job Market** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hidden Job Market:

0 of 0 people found the following review helpful. Useful, really soBy J. KerteszThis book, found by chance the first time by me in 1978 in a San Francisco bookstore, was useful for my change of career in 1980, and I bought it again and again for my son and now his wife who in 2003 does not know what to do - so she has so many tallents. The book helps you recognise, what you like, what you are good at, how you would like to spend so many hours left of your life. And then, gives you courage to go for it.
