By Long T. Nguyen  
To be honest, I think what this book is good at helping the job-hunters belong to Chapters from Chapter No.6 to the end. The variety of questions is really helpful and the strategy of answers is pretty informative. I like this book.

In this book, experienced interviewer, Charlie Gibbs provides valuable advice on how to prepare for your interview, how to conduct yourself at the interview and, most crucially perhaps, gives examples of the sort of questions you are likely to be asked, with the kind of answers interviewers really want to hear. Common interview questions included are on your - drive for achievement - strategic thinking - relationship building - commercial awareness - leadership skills - decision-making skills and judgement - customer awareness - development of self and others - teamworking skills  
You'll also find some good ideas for questions you can ask your interviewer.

'...an excellent reference to questions and potential best responses to them.' Daniel White 'Allows us to actually get inside the head of an interviewer...Written in a nonsensical conversational style this book covers everything you need to know about an interview before, during and after the interview.' streetbrand.com 'Gold dust!... to the point, up to date and lacking jargon (most importantly!).'
