**Benjamin Paul : How to Create a Resume That Doesn't Suck (and Will Actually Get You the Job)** before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Create a Resume That Doesn't Suck (and Will Actually Get You the Job):

0 of 0 people found the following review helpful. Resume writing book that doesn't suck-awesome readBy Stephanie RivelliI have always struggled with writing a resume that grabbed people's attention. I know in this job market, people

don't want to see the same thing from each person. And we all know that there are plenty of people who are educated and qualified and have experience and are the ideal candidate. But Paul does a good job at helping you to learn that ways of the resume writing world. I learned so many valuable lessons about writing a resume. The directions and lists of what to do and not do were so easy to follow. Additionally, Paul offers a sense of humor that is not easily found in a book that is supposed to be serious. The techniques ring true and I can't wait to try them on my next resume. However, it wasn't the dry, boring technical jargon that one would assume is found in a resume writing book. The humor makes this an easy read. Anyone who is looking for a job would definitely benefit from reading this book. 0 of 0 people found the following review helpful. Great resume writing advice- in the style of friendly, casual conversation By Karina One of the major appeals of this book was its casualness and ease of reading. It feels like a well respected friend is giving you sound advice. Of course, this style of writing may not appeal to everyone, but for me it made understanding the process for crafting a successful resume much easier to comprehend and then translate into practice. Additionally, I appreciate that the advice has a large focus on content instead of some books/articles that focus mostly on the technical aspects, such as font type, header size, etc. Highly recommend! 0 of 0 people found the following review helpful. This is an very helpful book. I am in ... By Mark D. This is an very helpful book. I am in the process of updating my own resume right now and this book has helped me to break very old habits of how a resume should be written. It also helped to find out what recruiters are looking for in today's resumes. The only thing is that I wish visual examples would be shown of each section or chapter.

Discover the Secrets to Writing the Perfect Resume? Not sure how to create a resume that gets noticed by recruiters? Want to know how to present yourself in a professional - and non-creepy - way? Looking for a super-simple guide to creating an engaging cover letter? Worry not!
